Add Store Listing to OWF

- OZONE Point of Contact:
 - <https://groups.google.com/forum/#!forum/ozoneplatform-users>
 - <http://area51.stackexchange.com/proposals/82636/ozone-platform>

- **Purpose:**
 - The Store enables users to **search, discover, create and use** a variety of applications or software components that are known as **“listings.”**
 - Like commercial software stores, the Store offers quick, easy access to business, mission and convenience applications.

- **System Requirements:**
 - **Supported Application Server:**
 - Apache Tomcat 7
 - **Supported Database:**
 - MySQL
 - * Oracle, PostgreSQL and SQL Server will be tested in future releases.
 - **Supported Browsers:**
 - Internet Explorer 7 & 9
 - Firefox 17
 - Chrome 25

The screenshot shows the OWF MP website interface. At the top left is a green MP logo. A large green arrow points to a search bar at the top right, which contains a magnifying glass icon. A callout box with a grey background and black border contains the text "Type *weather* in Search Bar". Below the search bar is a "Type" dropdown menu. In the center, there is a "Browse" section with a "Get Started..." button and two icons: a 3x3 grid for "All Listings" and a calendar for "New Arrivals". To the right of these icons is a "Highest Rated" section with a yellow star icon. At the bottom, there is a "★ Highest Rated" section with a "see all" link and a row of six weather-related images: a fire, a thermometer, a weather map, a radar map, a satellite map, and a hurricane.

Weather-related images: fire, thermometer, weather map, radar map, satellite map, hurricane

The screenshot shows a web application interface for browsing listings. At the top left is a green 'MP' logo. At the top right is a search bar containing the text 'weather' with a magnifying glass icon. Below the search bar, there are filters for 'Type' and 'Category'. A green oval highlights the text 'Search Results 10 of 10'. To the right of this, there are icons for 'sort' (a star), 'A' (text size), a calendar icon, and 'view' (list and grid icons). The main content area displays a grid of eight weather-related listings. Each listing includes a thumbnail image, a title, a 'Local Store' icon, and a star rating with a count in parentheses. The listings are: 'Local Bar...' (thermometer image, 5 stars, 1 review), 'Radar' (radar image, 0 stars, 0 reviews), 'Temperature...' (temperature map image, 5 stars, 1 review), 'Hurricane Tr...' (hurricane image, 0 stars, 0 reviews), 'Global Hurric...' (global hurricane image, 4 stars, 4 reviews), 'Tropical Stor...' (tropical storm image, 0 stars, 0 reviews), and 'Heat Maps' (heat map image, 5 stars, 1 review).

Search Filters

The screenshot shows a search interface with a search bar containing the word "weather". Below the search bar, there are two filters: "Type" and "Category". The "Category" filter is expanded, showing a list of categories with checkboxes and counts. A green arrow points from the "Type" filter to the "Category" filter. A text box with the text "The drop-down filters refine search results" is overlaid on the search results.

Search Filters

The screenshot shows a search interface with a header bar containing an 'MP' logo and a search bar with the text 'weather'. Below the header, there are two filter dropdowns: 'Type' and 'Category'. A green arrow points from the 'Type' dropdown to the 'Category' dropdown. The 'Category' dropdown is open, showing a selection for 'Collaboration (3)'. Below the filters, there are three search results: 'Climate Map...', 'Lunar Cycles', and 'Heat Maps'. Each result has a thumbnail image, a title, a 'Local Store' icon, and a star rating. The 'Search Results' text is circled in green. To the right of the search results, there are controls for 'sort' (star icon), 'A' (alphabetical), '31' (calendar icon), and 'view' (list and grid icons).

View Listing: Quick View

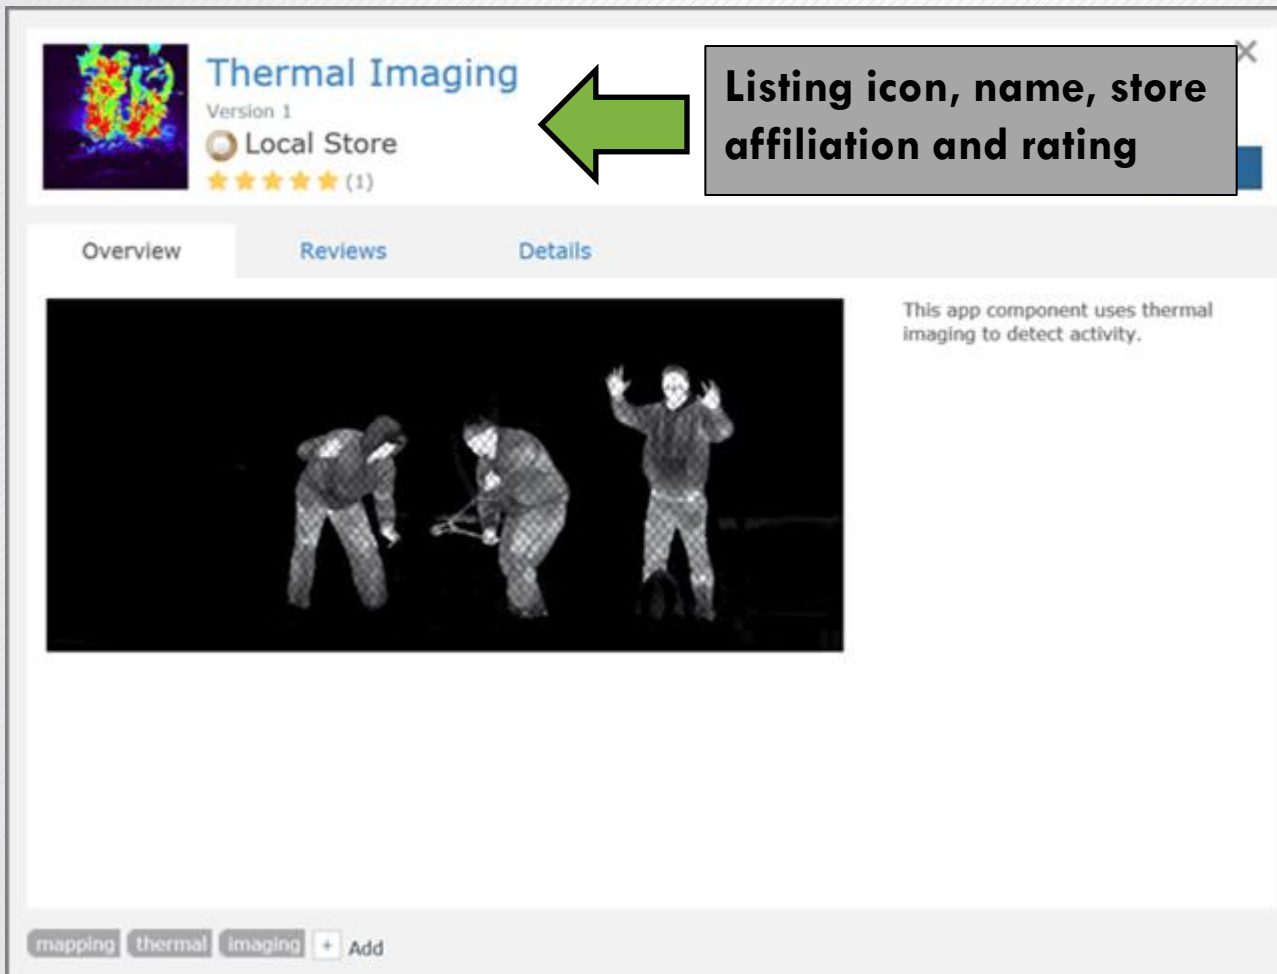

Click icon to see Listing's Quick View

The screenshot displays the MP Marketplace interface. At the top, there's a search bar with the text 'Tropical' and a magnifying glass icon. Below the search bar, there are filters for 'Type' and 'Category'. The main content area shows 'Search Results' with '1 of 1' items. A green box highlights the 'Tropical Storm Tracking' listing, which includes a map icon, the title 'Tropical Stor..', 'Local Store' status, and a star rating of (0). A green arrow points from this listing to a 'Quick View' modal. The modal shows the full details of the 'Tropical Storm Tracking' widget, including a satellite image of a storm, a description, and a 'Scorecard' section. The modal also has tabs for 'Overview', 'Reviews', 'Details', 'Admin', and 'Scorecard'. At the bottom of the modal, there's a breadcrumb trail: 'tropical storm x hurricane x weather x tracking x map x global x + Add'.

Scorecard

Is Enterprise Management System (EMS) part of the support structure?
In order to satisfy this criterion, the application must be supported with Tier 1 support so that users can access help for any arising issues.

Is the application hosted within the infrastructure of the cloud?
In order to satisfy this criterion, the application must be running within the cloud structure. If an application is made up of multiple parts, all parts must be running within the cloud.

Does the application elastically scale?
In order to satisfy this criterion, the application must be able to dynamically handle how many users are trying to access it. For instance, if a low number of users are accessing the App Component a small number of resources are used. If a large number of users are accessing the App Component, the App Component scales

Listing Approval - Admin

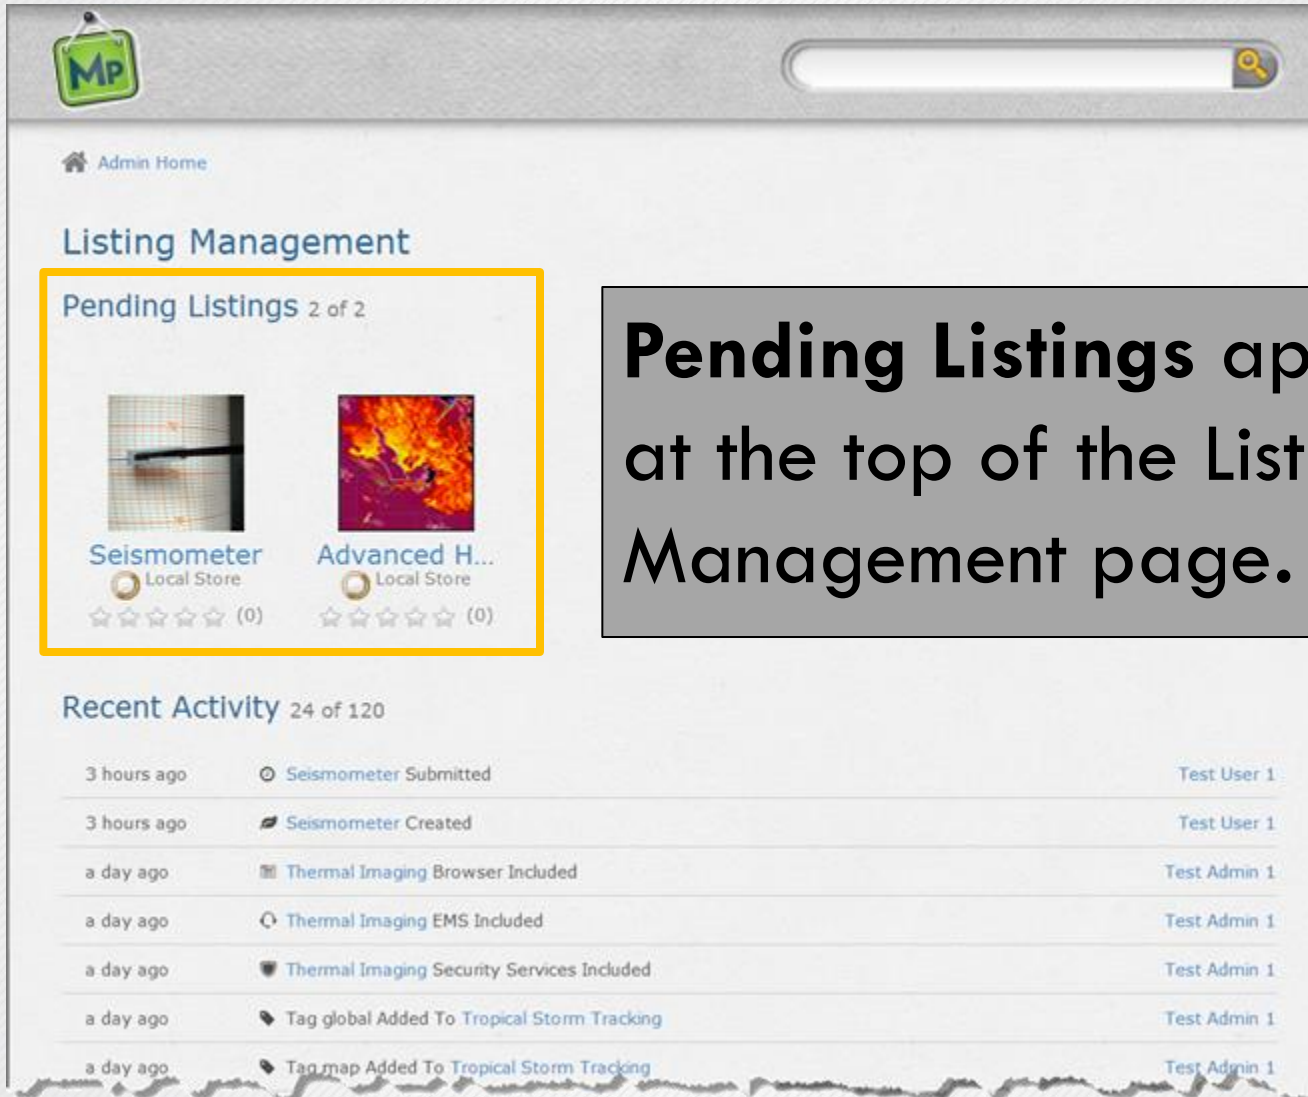

A screenshot of the OZONE Widget Framework Admin interface. The top navigation bar includes 'My Apps', 'App Components', 'Store', and a help icon. The main content area shows 'Admin Home' with instructions to use links to customize reference data. A table lists three items: 'Listing Management' (review pending listings), 'Types' (defines listing types), and 'State' (defines life-cycle states). A 'Category' section is also visible. On the right, a sidebar menu for 'Doc Admin' includes 'OWF Options', 'User Profile', 'Themes', 'About', 'Store Options', 'User Profile', 'Create Listing', 'Configuration', and 'Sign Out'. Two yellow boxes highlight the steps: box 1 highlights 'Configuration' in the sidebar, and box 2 highlights 'Listing Management' in the main content area.

To view Listings pending approval:

1. Click **Configuration Pages**

2. Then click **Listing Management**

The screenshot shows the 'Admin Home' page with a 'Listing Management' section. A yellow box highlights the 'Pending Listings' section, which contains two items: 'Seismometer' and 'Advanced H...'. Both items are marked as 'Local Store' and have a rating of (0). Below this, the 'Recent Activity' section shows a list of actions, including 'Seismometer Submitted' and 'Seismometer Created' by 'Test User 1', and several 'Thermal Imaging' related actions by 'Test Admin 1'.

The screenshot displays the OWF App Components Menu interface. The main menu shows a 'Highest Rated' section with items like 'Heat Maps' and 'National Bar...', and a 'New Arrivals' section with 'Seismometer' and 'Thermal Imaging'. A 'Quick View' window is open for the 'Thermal Imaging' component, showing its details, including a thumbnail image, version number, local store status, and a 3-star rating. The 'Add' button is highlighted in green. The window also shows tabs for 'Overview', 'Reviews', 'Details', 'Admin', and 'Scorecard'. The 'Overview' tab is active, displaying a thermal image of three people and a description: 'This app component uses thermal imaging to detect activity.' The bottom of the window shows a breadcrumb trail: 'mapping > thermal > imaging > Add'.

Confirmation

The screenshot displays the OZONE Widget Framework interface. At the top, a navigation bar includes 'My Apps', 'App Components', 'Store', and a help icon. A green notification banner at the top left states 'Thermal Imaging has been added successfully.' Below this, a modal window for the 'Thermal Imaging' app component is shown. The modal includes a checkmark icon, the app name 'Thermal Imaging', 'Version 1', 'Local Store', and a 3-star rating. A 'Start' button is in the top right corner. The modal has tabs for 'Overview', 'Reviews', 'Details', 'Admin', and 'Scorecard'. The 'Overview' tab is active, showing a thermal image of three people and the text 'This app component uses thermal imaging to detect activity.' A green arrow points from the 'Start' button to a green notification banner at the bottom right that says 'Added The App Component was successfully added.'

Thermal Imaging has been added successfully.
